

## Announcement/ App Notification

For the attention of TY and senior students.

How would you like to train to be a swimming pool life guard?

Irish Water Safety accredited training courses are run locally at the Curragh Pool.

This course runs over two consecutive weekends.

There is a cost involved depending on the number of participants. Minimum numbers are required to make it viable.

Once qualified you could be employed as a designated lifeguard, trained in pool rescue and basic life support techniques.

Further information can be found at <https://watersafety.ie/lifeguard-training>

If interested please contact Ms. Harney

Thank you
